# ENGLISH HERITAGE

MUSIC SERIES

The “renaissance” in English music is generally agreed to have started in the late Victorian period, beginning roughly in 1880. Public demand for major works in support of the annual choral festivals held throughout England at that time was considerable which led to the creation of many large scale works for orchestra with soloists and chorus.

Although a number of those works were engraved, printed and are regularly performed today, performance scores for a considerable number of compositions, both large-scale and more intimate works, are not available. These works were either never engraved or were engraved and printed but are no longer available in the publishers’ catalogues. While the existence of these works is documented in biographies of the composers, the ability to study and, most importantly, to perform these compositions is not possible.

Changes in the International copyright laws, coupled with changing musical tastes, played a pivotal role in creating this void. As a result, music publishers lost the ability to generate revenue from the sale/rental of such music. In 1964, holograph and copyist scores from both Novello and from publishers it represented were offered to the British Library and the Royal College of Music Library (see The RCM Novello Library – The Musical Times, Feb. 1983 by Jeremy Dibble ).

These autograph full score manuscripts along with copies of engraved vocal scores, widely available through various online library sources, are now the only resources available for studying and performing these works.

The English Heritage Music Series has been created to ensure that these compositions are preserved, are accessible for scholarly research and, most importantly, are available for performance by future generations. Its mission is to:

- Source non-engraved/out-of-print English composer compositions that are in the U.S. public domain
- Preserve these compositions through the preparation of performance scores using notation software
- Provide open Internet access to the scores to facilitate study, performance and sharing of performance material (program notes, audio, reviews, etc.)

In preparing the English Heritage Music Series editions, every effort has been made to adhere strictly to the notation contained in the manuscripts. Because of the passage of time and its effect on the condition of the manuscript, the absence of clear information often times by the composer in notating divided instruments, and with emendations in the composer and other hands resulting from use of the manuscript in performance, there were numerous circumstances which required interpretation and decisions for notes, accidentals, dynamics, articulations and tempi. Should questions arise in the use of these editions, the composers’ autograph manuscripts and the vocal scores should be consulted for clarification.

Granville Bantock was born in London. His father was an eminent Scottish surgeon. His younger brother was the dramatist and film director Leedham Bantock. Granville Bantock was intended by his parents for the Indian Civil Service but he suffered poor health and initially turned to chemical engineering. At the age of 20, when he began studying composers' manuscripts, at South Kensington Museum Library, he was drawn into the musical world. His first teacher was Dr. Gordon Saunders at Trinity College of Music. In 1888 he entered the Royal Academy of Music where he studied harmony and composition with Frederick Corder, winning the Macfarren Prize in the first year it was awarded.

Early conducting engagements took him around the world with a musical comedy troupe. With his brother Leedham Bantock he wrote a couple of music hall songs which met with some success. He founded a music magazine, *The New Quarterly Music Review*, but this lasted only a few years. In 1897, he became conductor at the

New Brighton Tower concerts, where he promoted the works of Joseph Holbrooke, Frederic Hymen Cowen, Charles Steggall, Edward German, Hubert Parry, Charles Villiers Stanford, Corder and others, frequently devoting whole concerts to a single composer. He was also conductor of the Liverpool Orchestral Society with which he premiered Delius's *Brigg Fair* on 18 January 1908. He became the principal of the Birmingham and Midland Institute School of Music in 1900. He was a close friend of fellow composer Havergal Brian. He was Peyton Professor of Music at the University of Birmingham from 1908 to 1934 (in which post he succeeded Sir Edward Elgar). In 1934, he was elected Chairman of the Corporation of Trinity College of Music in London. Bantock was knighted in 1930. His students included the conductor and composer Anthony Bernard and the composer Eric Fogg. In 1898 he married Helena von Schweitzer (1868–1961) who acted as a librettist for him.

His music was influenced by folk song of the Hebrides (as in his 1915 *Hebridean Symphony*) and the works of Richard Wagner. Many of his works have an "exotic" element, including the choral epic *Omar Khayyám* (1906–09). Among his other better-known works are the overture *The Pierrot of the Minute* (1908) and the *Pagan Symphony* (1928).

Shortly after the composer's death in London in 1946, a Bantock Society was established. Its first president was Jean Sibelius, whose music Bantock championed during the early years of the century. Sibelius dedicated his Third Symphony to Bantock.

Edward Elgar dedicated the second of his *Pomp and Circumstance* marches to Bantock.

# Kubla Khan

by

SAMUEL TAYLOR COLERIDGE

*Or, a vision in a dream. A Fragment*

In Xanadu did Kubla Khan  
A stately pleasure-dome decree:  
Where Alph, the sacred river, ran  
Through caverns measureless to man  
Down to a sunless sea.  
So twice five miles of fertile ground  
With walls and towers were girdled round;  
And there were gardens bright with sinuous rills,  
Where blossomed many an incense-bearing tree;  
And here were forests ancient as the hills,  
Enfolding sunny spots of greenery.

But oh! that deep romantic chasm which slanted  
Down the green hill athwart a cedarn cover!  
A savage place! as holy and enchanted  
As e'er beneath a waning moon was haunted  
By woman wailing for her demon-lover!  
And from this chasm, with ceaseless turmoil seething,  
As if this earth in fast thick pants were breathing,  
A mighty fountain momently was forced:  
Amid whose swift half-intermittent burst  
Huge fragments vaulted like rebounding hail,  
Or chaffy grain beneath the thresher's flail:  
And mid these dancing rocks at once and ever  
It flung up momently the sacred river.  
Five miles meandering with a mazy motion  
Through wood and dale the sacred river ran,  
Then reached the caverns measureless to man,  
And sank in tumult to a lifeless ocean;  
And 'mid this tumult Kubla heard from far  
Ancestral voices prophesying war!  
The shadow of the dome of pleasure  
Floated midway on the waves;  
Where was heard the mingled measure  
From the fountain and the caves.  
It was a miracle of rare device,  
A sunny pleasure-dome with caves of ice!

A damsel with a dulcimer  
In a vision once I saw:  
It was an Abyssinian maid  
And on her dulcimer she played,  
Singing of Mount Abora.  
Could I revive within me  
Her symphony and song,  
To such a deep delight 'twould win me,  
That with music loud and long,  
I would build that dome in air,  
That sunny dome! those caves of ice!  
And all who heard should see them there,  
And all should cry, Beware! Beware!  
His flashing eyes, his floating hair!  
Weave a circle round him thrice,  
And close your eyes with holy dread  
For he on honey-dew hath fed,  
And drunk the milk of Paradise.

Samuel Taylor Coleridge  
(21 October 1772 – 25 July 1834) was an English poet, literary critic, philosopher and theologian who, with his friend William Wordsworth, was

a founder of the Romantic Movement in England and a member of the Lake Poets. He also shared volumes and collaborated with Charles Lamb, Robert Southey, and Charles Lloyd. He wrote the poems *The Rime of the Ancient Mariner* and *Kubla Khan*, as well as the major prose work *Biographia Literaria*. His critical work, especially on William Shakespeare, was highly influential, and he helped introduce German idealist philosophy to English-speaking culture. He had a major influence on Ralph Waldo Emerson and American transcendentalism.

This musical score consists of six staves, each representing a different vocal part or instrument. The parts are labeled vertically on the left: I, T., II, I, Bar., II, I, B., II. The music is in common time, with a key signature of G major indicated by a 'G' in a box at the beginning. The tempo is marked 'Con moto.' The dynamics are primarily 'f' (fortissimo) and 'ff' (fortississimo). The lyrics 'Kub-la heard from' appear twice, followed by 'And 'mid the tu - mult' appearing five times. The score concludes with a dynamic marking of 'allargando' and a final measure where the bass staff begins with a 'f' dynamic and a sharp symbol.
